Consultancy and Training

with Horton Consulting

3 Stage Approach to Supporting Clients

Horton Consulting provides world-class training for the entire dental team. Renowned for expertise in Treatment Coordination Laura delivers training in a hybrid way to support every type of practice and team.

1. CONSULT

To find out exactly what is happening and to understand the nuts and bolts of how you operate.

2. TRAIN

To help you reach the goal.

3. COACH

To keep you and the team motivated and to support you through any system changes.

Consultancy and Training with Horton Consulting

Training can take place online through

Training for owners, manager, dentists and receptionists.

Practice Club is only available until July 2021 to support the dental profession as they bounce back from Covid-19. Laura is giving practices access to her world class training to save them money, time and to save time on team training. All of the training is designed to support profitable practices.

A unique platform with a hybrid approach to training treatment coordinators.

We can help your practice to fully integrate the role to work alongside and interlock with your clinical team.

Treatment Coordination is about the patient, clinical and non-clinical team, it provides support to all. It brings everyone together to support effective communication within a consistent and seamless patient experience.

Consultancy and Training with Laura

This takes place in a hybrid way either through virtual training on Zoom, in practice or a combination of both.

Laura provides motivational training, packed with substance to support your business for the long term. Laura provides bespoke manuals, scripts and gives you all the resources you need to reach your end goal.
