

Do you want support with the day-to-day administration of running your business? You're not alone, so do many dentists! This is the reason we set-up igloo Healthcare.

We have the solution for you

Why igloo Healthcare?

igloo Healthcare supports your business by taking care of the administration while you focus on dental excellence, the patient experience and growing your revenue. We specialise in providing Accountancy, Health & Safety, HR and IT support ensuring both compliance and the smooth running of your business.

igloo Healthcare provides you with a real choice that currently isn't available anywhere else. The choice to retain ownership, retain decision making, and retain profits whilst having support with Accountancy, Health & Safety, HR and IT from one company at a reasonable fixed monthly fee.

About igloo Healthcare

We had worked in corporate dentistry for a number of years. We regularly heard the same message "We want to be our own boss but are spending too much time with admin and not enough time doing what we love, dentistry!"

We took a decision that we would leave the comfort of employment and create a company that provided this support to individual practices, small groups and mini corporates. In essence, replicating the corporate infrastructure but making it accessible to all dental practices irrelevant of their size or location. Every practice has a requirement for Accountancy, Health & Safety, HR and IT support but it isn't cost effective to have all these in-house; it's a business requirement, not your core business! Yes there are companies who provide all of these services separately, however we wanted to be different and provide them all under one solution.

Since 2009, we have steadily grown, built a good reputation and continue to focus on our objective of being the market leading support services company to the dental sector. Our clients range from single practices to corporates, those who want support with the administration, others who are gearing up for an exit so want us to help maximise the value of their business to those who are acquiring and want to build a group.

Our hands-on approach to accountancy gives you real time information, enabling you to make informed decisions about your business.

We know Health & Safety can be a little confusing, complex and time consuming, however we also know it's a very real risk to your business.

We help you attract, develop and retain the best people for your business whilst providing client focused, commercial, strategic HR advice to enable you to manage your people effectively.

We know how important your IT is to the smooth running of the practice. Imagine how simple it would be with one point of contact for all your IT problems.
